

Header Data

Released On	20.03.2015 23:00:02
Release Status	Released for Customer
Component	PY-ES Spain
Other Components	PA-PA-ES Spain XX-CSC-ES-PY Payroll
Priority	Correction with medium priority
Category	Legal change

Symptom

This SAP Note provides you with the relevant system changes to comply with the **Files Processing (Procesamiento de ficheros)** of the **Sistema de Liquidación Directa (Cret@)**.

For more information, see the following website:

- **Sistema RED – Manual Creta. Especificaciones técnicas:** <http://www.seg-social.es/prdi00/groups/public/documents/binario/187220.pdf>

Procesamiento de ficheros;

Reason and Prerequisites

You have to apply the following SAP notes as prerequisites:

- 2109944 - UTIL: Improvements to reusable functionalities
- 2118170 - CRETA: General Corrections VIII (Version 1)
- 2130708 - CRETA: UDO report for SAP Note 2128689

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.04	HR SP 65
6.00	HR SP 99

(For more information, click on "R/3 HR Support Package Schedule" in www.service.sap.com/ocs-schedules.)

Solution

The new **Cret@: Procesamiento de ficheros** (RPC_PAYES_CRETA_FILES) report has been created.

To execute the report you need to enter the response XML file according definition of TGSS. You may enter filter criterias as personnel number, CCC, etc. The program displays the messages reported by the XML file in ALV format.

IMPORTANT: The report supports only online (foreground) execution, a background execution is not possible.

General information about the report operation

I. Selection Screen

- **Fichero de respuesta:** Indicates the file that will be processed by the report.

- **Número de personal:** Filter the output log with a range of personnel numbers.
- **Nº de afiliación:** Filter the output log with a range of Social insurance numbers.
- **Cód. cuenta de cotización:** Filter the output log with a range of Company contribution account codes.
- **Período de liquidación:** Filter the output log with a range of liquidation periods.
- **Mostrar mensajes de error:** Filter the output log to display error messages.
- **Mostrar mensajes informativos:** Filter the output log to display informative messages.

IMPORTANT: Filtering the file may not change the processing time because the whole file still needs to be read.

II. Output log

- **Estadísticas:** Statistics related to the number of employees found in the file and how many of them have an error message.
 - **Personas seleccionadas:** The number of different personnel numbers found in the file.
 - **Personas tratadas correctamente:** The number of different personnel numbers with informative messages.
 - **Personas rechazadas:** The number of different personnel numbers with error messages.
- **Mensajes generales:** technical messages related to tables that are not maintained or any other technical issue.
- **Mensajes informativos:** list of all error nodes that contain a message that is not an error.
- **Todos los errores:** list of all errors (file, liquidation, month and employee) reported in the XML file.
- **Errores a nivel del fichero:** list errors reported in the XML file related to the file.
- **Errores a nivel de liquidación:** list errors reported in the XML file related to liquidation.
- **Errores a nivel del mes:** list errors reported in the XML file related to the month.
- **Errores a nivel del trabajador:** list errors reported in the XML file related to the employee.

The following columns from the ALV have a special behavior when clicked:

- **Personnel Number:** It will call the **Visualizar datos maestros personal** (PA20) transaction for the personnel number and with the **Seguridad Social** (0061) infotype selected. In case the user does not have authorization to access this transaction, no action will be performed.
- **Employee Value:** It will call the **Visualización resultados nómina**(PC00_M04_CLSTR) transaction for the selected employee. In case the user does not have authorization to access this transaction, no action will be performed.

Configuration

There are four message codes used by TGSS that are not an error message, but instead an informative message. They are the following ones:

- R9529 - La liquidación está calculada
- R9626 - Rectificación aceptada
- R9669 - Se ha generado Borrador
- R9742 - Confirmado de Oficio

This SAP Note provides the standard configuration under the **Especificar valores fijos para atributos HR** (V_T799BATTRIB02) table view for the HR Attribute AT_CRETA_F_SMSGVA. All the entries for this attribute means that this message code is considered by Cret@ Files as an informative message. You can enter or remove entries for this key.

As general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual pre-implementation steps.
2. Use Note Assistant (SNOTE) to implement the correction instructions.

List of new/changed objects (manual activities related):

R3TR VDAT V_T799BATTRIB00
 R3TR VDAT V_T799BATTRIB01
 R3TR VDAT V_T799BATTRIB02
 R3TR VDAT V_T799BATTRIB03C
 R3TR VDAT V_T799BATTRIB05

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.

Note that documentation and Customizing activities are only delivered via Support Package.

VERSIONING	
4	Released

Manual Pre-Implement.	
VALID FOR	
Software Component	SAP_HRCES
Release 608	Until SAPK-60813INSAPHRCS

1. Apply the prerequisite SAP Notes 2109944, 2118170 and 2130708 (for SAP Note 2130708 you also need to run the DDIC report for your system release).
2. Follow the pre-implementation steps from attached document "[Manual_pre_implen_note_2128689.pdf](#)".

Manual Pre-Implement.	
VALID FOR	
Software Component	SAP_HRCES
Release 604	SAPK-60465INSAPHRCES - SAPK-60485INSAPHRCES

1. Apply the prerequisite SAP Notes 2109944, 2118170 and 2130708 (for SAP Note 2130708 you also need to run the DDIC report for your system release).
2. Follow the pre-implementation steps from attached document "[Manual_pre_implem_note_2128689.pdf](#)".

Manual Pre-Implement.	
VALID FOR	
Software Component	SAP_HRCES
Release 600	SAPK-60099INSAPHRCES - SAPK-600B9INSAPHRCES

1. Apply the prerequisite SAP Notes 2109944, 2118170 and 2130708 (for SAP Note 2130708 you also need to run the DDIC report for your system release).
2. Follow the pre-implementation steps from attached document "[Manual_pre_implem_note_2128689.pdf](#)".
