

Header Data

Released On	11.02.2016 13:05:36
Release Status	Released for Customer
Component	PY-ES Spain
Other Components	PA-PA-ES Spain XX-CSC-ES-PY Payroll
Priority	Correction with medium priority
Category	Correction of legal function

Symptom

You run the **Cálculo de nómina española** (PC00_M04_CALC) report for an employee with **Expedientes de Regulación de Empleo (ERE)** days, and the days after the ERE absence are being wrongly calculated.

This also causes the **fichero de bases** for the **Sistema de Liquidación Directa (SLD)** to be rejected by Social Security with the following error message returned in the response file: **Tramo inexistente en afiliación para ese trabajador** (R9503).

Other Terms

&CALC (for more information, see SAP Note 1071282)

Reason and Prerequisites

The issue is caused by a program error. The form extract_abstypes in the RPCABSE0 include is generating the **Tipos absentismo en período** (ABP) cluster table incorrectly: the day after an ERE absence is being incorrectly considered as an ERE day.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 05
6.04	HR SP 77
6.00	HR SP B1

(For more information, click on "R/3 HR Support Package Schedule" in www.service.sap.com/ocs-schedules.)

Solution

Corrections to source code of the RPCABSE0 include have been provided to solve this issue. From now on, the day after an ERE absence is processed correctly and, therefore, the ABP cluster table is generated correctly.

VERSIONING	
2	Released

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.
