Reason and Prerequisites

1. The SLD Response File version has been updated and a new node in the XML: **AcciónDatosBancarios**
2. New error codes have been created and must be treated as an information message.

You have to apply SAP Note 2262150 as prerequisite.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 04
6.04	HR SP 75
6.00	HR SP A9

(For more information, click on "R/3 HR Support Package Schedule" in www.service.sap.com/ocs-schedules.)

Solution

1. Changes have been made to **Fichero de respuesta del Cret@** (HRPAYES_CRETA_RESPONSE) transformation according to the new legal layout.
Attention: the data returned on XML element **<AcciónDatosBancarios>** is not going to be processed neither shown on SLD File report's output.
2. The following entries have been added to the **Especificar valores fijos para atributos HR** (V_T799BATTRIB02) table view for the **Ficheros de Cret@: mensajes informativos** (AT_CRETA_F_SMSGVA) HR Attribute:
 - o **A9785** - Movimiento procesado correctamente
 - o **A9786** - Movimiento procesado correctamente
 - o **A9787** - Movimiento procesado correctamente
 - o **A9788** - Los datos bancarios han sido eliminados
 - o **A9789** - Los datos bancarios han sido eliminados

- o **A9993** - El envío se ha realizado en el entorno de prácticas

Additionally, corrections to source code of **SLD: procesamiento de ficheros** (RPC_PAYES_CRETA_FILES) have been provided to control the version of SLD Response File and check if the file type match the type selected in the selection screen. The message **El fichero &1 no es del tipo &2** (5E682) has been created to inform when a file with a different type is uploaded.
