As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.
2. Apply the manual post-implementation steps.

This report serves only as a tool to generate the required objects automatically. Therefore, it is not necessary to transport it to your production system.

After the execution of the report, you may want to remove it.

List of new/changed objects (manual activities related):
