

Header Data

Released On	02.02.2016 18:57:50
Release Status	Released for Customer
Component	PY-ES Spain
Other Components	PA-PA-ES Spain XX-CSC-ES-PY Payroll
Priority	Correction with medium priority
Category	Program error

Symptom

This SAP Note introduces the functionality to identify if a wage type is an arrears or no arrears through the creation of the **Evaluación de atrasos y no atrasos** (CL_HRPAYES_ARREARS_INSPECTOR) class.

Other Terms

&UTIL (for more information, see SAP Note 1071282)

Atrasos; No Atrasos;

Reason and Prerequisites

This is not a program error, but an enhancement to support future developments.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 05
6.04	HR SP 77
6.00	HR SP B1

(For more information, click on "R/3 HR Support Package Schedule" in www.service.sap.com/ocs-schedules.)

Solution

To check if a wage type is an arrears or no arrears, the following algorithm is processed:

1. Get the wage type's **Atrasos de ejercicios fiscales anteriores** (70) processing class value;
2. Process the **Agrupador para atrasos de ejercicios fiscales anteriores** (EATRA) feature using the processing class 70 value;
3. Check if there is an entry in the **Atrasos por período y agrupador** (V_T5EI6) view for the processed period and the value returned from the EATRA feature. If so, then use the value from the **Atraso** (T5EI6-ATRAS) column to determine if it is an arrears or no arrears;
4. If there is no entry in the V_T5EI6 view for the selection criteria described in step 3, then use the value returned from the EATRA feature to read the **Comportamiento por defecto para agrupadores de atrasos** (V_T5EI7) view. If so, use the value from the **Atraso** (T5EI7-ATRAS) column to determine if it is an arrears or no arrears;
5. If there is no entry in the V_T5EI7 view for the selection criteria described in step 4, then read the **Ptje. atrasos año anterior** (IPOAT) constant from the **Constantes de control IRPF** (V_T5EI3) view. If the IPOAT constant has any value different from 0, then the wage type will be set as an **arrears**. Otherwise, if it is equals to 0, the wage type will be set as a **no arrears**.

VERSIONING	
1	Released

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.
