## Symptom

You run the **Cálculo de ingresos gravables anuales** (RPIGA0E0) report with the **Con result. ant. c/mes inicial** (S\_REA\_IN) or **Con result. ant s/mes inicial** (S\_REA\_EX) options for an employee with arrears (**atrasos**). Then, differences of fixed or variable variables (**variables fijas o variables**) are also considered differences of the employees' gross wage (**salario bruto**).

## Other Terms

&IGA (for more information, see SAP Note 1071282)

PC00\_M04\_RPIMBIE0, Variables fijas, Variables variables, Atrasos.

## Reason and Prerequisites

The issue is caused by a program error. During a payroll retrocalculation, the **Salario bruto** (/11A) wage-type will always be generated including the arrears value, even if the wage-types of these values do not have **Salario bruto** (1) value in the **Estimación de retribuciones íntegras para I.R.P.F.** (68) processing class.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 04
6.04	HR SP 76
6.00	HR SP B0

(For more information, click on "R/3 HR Support Package Schedule" in [www.service.sap.com/ocs-schedules](http://www.service.sap.com/ocs-schedules).)

## Solution

Corrections to source code of RPIGA0E0 have been provided to solve this issue. The arrears from fixed and variable variables will be subtracted from the gross wage amount.
