

Header Data

Released On	18.03.2016 19:40:44
Release Status	Released for Customer
Component	PY-ES Spain
Other Components	PA-PA-ES Spain XX-CSC-ES-PY Payroll
Priority	Correction with medium priority
Category	Correction of legal function

Symptom

After applying the SAP Note 2267485, the following symptoms have been identified in the **Mensaje FDI** (RPCFDIE0) report and in the **Datos de mensaje FDI** (0768) infotype:

1. The **Recaída** (1050) field of the **Datos de Incapacidad Temporal** (DIT) segment is being filled for **Parte de confirmación** (PC) actions, causing the **Mensaje de documentos del I.N.S.S.** (FDI) file to be rejected by the Spanish Social Security.
2. The **Entidad emisora** (1410) field of the **Otros Datos de IT** (ODI) segment is not being filled in the FDI file.
3. The **Último parte confirmación traslado** (1360) field of the **Otros Datos del Parte** (ODP) segment only allows the values **Si** (S) and **No** (N), however the **Últ.parte cnf.trsl** (P0768-TRANSFER_CONF) infotype field accepts invalid values.
4. The **Cumpl. 365 días** (P0768-DATE_365) and **Días de baja** (P0768-PROB_LEAVE_DAYS) infotype fields are not initialized with the values expected by the Spanish Social Security.
5. You run the report for a labor accident colliding with a legal guardianship. The **Fecha de baja proceso anterior** (1450) and the **Fecha de baja proceso inicial** (1460) fields of the **Otros Datos de IT** (ODI) segment are filled with the dates regarding the legal guardianship.

Other Terms

&FDI (for more information, see SAP Note 1071282)

PC00_M04_MENS_FDI, guarda legal, accidente de trabajo

Reason and Prerequisites

The issues are side effects of the solutions delivered by SAP Notes 2261955 and 2267485, or requirements that have not been covered by those SAP Notes:

1. The FDI file layout describes the *recaída* field as mandatory for PA and PB action, but not prohibited for other actions. Even so, the file is rejected by the new version of the WinSuite software.
2. This field is not mandatory and it was not covered in the first delivery of the ODI segment.
3. No validation is made for this field.
4. These fields are initialized with wrong values.
5. The relevant dates to be reported are the ones related to the labor accident.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 06
6.04	HR SP 78
6.00	HR SP B2

(For more information, click on "R/3 HR Support Package Schedule" in www.service.sap.com/ocs-schedules.)

Solution

Corrections to source code of RPCFDIE0 report and MP076800 module pool have been provided to solve this issue.

1. Now the *recaída* field is only filled for PA and PB actions.
2. Now the *Entidad emisora* field is filled accordingly to the **Asseguradora** (P0768-EASIT) infotype field.
 - o A search help has been created for the P0768-EASIT infotype field.
 - o The values of the **Códigos de mutuas de asistencia sanitaria - Seg.Social** (T5E32) table have been updated.
 - o The following rule is used to fill the *Entidad emisora* field:
 - a. If the *Asseguradora* is **I.N.S.S.** (777) or **INSTITUTO SOCIAL DE LA MARINA** (888), then the *Entidad emisora* is **INSS/ISM** (2).
 - b. If any other *Asseguradora* is selected, then the *Entidad emisora* is **Mutua** (3).
 - c. If no *Asseguradora* is selected, then the *Entidad emisora* is **SPS** (1).

3. The P0768-TRANSFER_CONF infotype field has been replaced by the **Últ.parte cnf.trsl** (P_TRANSFER_CONF) checkbox.
4. The new proposed values for these fields are:
 - o *Cumpl. 365 días* = *Fecha de la baja* + 365 - 1
 - o *Días de baja* = *Fecha del alta* - *Fecha de la baja* + 1
5. In case of absence collision, the one with **Días de absentismo/presencia** (P2001-ABWTG) calculated is considered.

VERSIONING	
4	Released

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual pre-implementation steps.
2. Use Note Assistant (SNOTE) to implement the correction instructions.

List of new/changed objects (manual activities related):

R3TR VDAT V_T5E32

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.

Note that documentation, transactions and Customizing activities are only delivered via Support Package.
