- READ\_T596I - Retrieves all lines of the table T596I for a given subapplication from the database
- READ\_T596J - Retrieves all lines of the table T596J for a given subapplication from the database

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [service.sap.com/note-assistant](http://service.sap.com/note-assistant).
