Reason and Prerequisites

This is an enhancement to the current functionality.

You have to apply SAP Note 2310557 (UDO: report for SAP Note 2307704) as a prerequisite.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 07
6.04	HR SP 79
6.00	HR SP B3

(For more information, click on "R/3 HR Support Package Schedule" in www.service.sap.com/ocs-schedules.)

Solution

The following enhancements are provided:

1. Changes to selection screen

The **Disposición del log técnico** (P_LAYOUT) selection screen field has been created to allow the user to select the layout of the technical log ALV node before the report execution. This field is only available when the **Log técnico** (P_TECLOG) checkbox is selected. Additionally, the **Opciones del log de salida** block has been created to gather both fields in the selection screen.

2. Navigation features from ALV fields

When the user clicks on the **Nº afiliación** (NATSS) or **Nº personal** (PERNR) ALV fields from the technical log, the report navigates to the **Visualizar datos maestros personal** (PA20) transaction. Additionally, when the user clicks on the **Importe** (BETRG), **Período En** (INPER), **Período para** (FPPER), **Secuencia** (SEQNR) or **Valor** (VALUE) ALV fields, the report navigates to the **Visualización resultados nómina** (PC_PAYRESULT) transaction.

3. Colors in ALV columns

Some ALV columns of the technical log are now colored for better usability.
