Symptom

The **Cálculo de nómina española** (RPCALCE0) report calculates an incorrect contribution base amount for absences in the hiring month if the payroll result contains two or more **B.cot.teórica CComunes** (/102) or **B.cot.teórica CProfes.** (/105) wage types. This can happen if the employee has an entry in the **Pago complementario** (0015) or **Devengos/Deducciones periódicos** (0014) infotypes that generate an additional /102 or /105 wage types (e.g. related to a different cost center).
