Reason and Prerequisites

This SAP Note corrects a side-effect from SAP Note 2245540.

There are payroll results that could be previously excluded by **Clase de lectura de nómina para período desfasado** (CL_HRPAYES_LAGGED_PERIOD) class and avoid further processing during RPC_PAYES_CRETA_BASES report execution.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 08
6.04	HR SP 80
6.00	HR SP B4

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

Corrections to source code of CL_HRPAYES_LAGGED_PERIOD have been provided to solve this issue. Now we check for previous and actual (i.e., P and A) payroll results from the same cluster (in this case, PCL2 or PCL4) that have the same **Nº de secuencia** (SEQNR) value. These results can be excluded from processing, since they are the same and will generate no additional settlement.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.
