

## Header Data

Released On	30.05.2016 22:39:39
Release Status	Released for Customer
Component	PY-ES Spain
Other Components	PA-PA-ES Spain XX-CSC-ES-PY Payroll
Priority	Correction with medium priority
Category	Correction of legal function

## Symptom

Before applying SAP Note 2287547, you run the **Mensaje de Afiliación** (RPCAFIE0) report with the **Automatismos** (S\_AUTOM) option to process a strike, generating a **Mecanización de huelga** (MHU) entry in the **Datos de mensaje AFI** (0799) infotype.

After applying SAP Note 2287547, you run again the report with the same selection, generating a **Mecanización de Inactividad** (MIN) entry in the **Datos de mensaje AFI** (0799) infotype for an absence that already has a respective AFI infotype entry.

## Other Terms

&AFI (for more information, see SAP Note 1071282)  
PC00\_M04\_MENS\_AFI, Automatismos, MHU, MIN

## Reason and Prerequisites

SAP Note 2287547 provides changes regarding the **Mensaje de Afiliación** (AFI) file, including the change of the **Mecanización de huelga** (MHU) action to **Mecanización de Inactividad** (MIN). However, it does not support the transition from the old to the new action type.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 08
6.04	HR SP 80
6.00	HR SP B4

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

Corrections to source code of RPCAFIF2 have been provided to solve this issue.

Now, when running the report to generate a MIN action, but there is already a respective MHU AFI infotype entry, the **Automatismos procesados** log will show this entry status, indicating whether this entry should not be created.

Note that this solution solves the issue for MHU entries with **Enviado** (2) or **Aceptado** (3) status. For MHU entries with **Por enviar** (1) status, the solution is copying the entries, saving them with MIN subtype and then deleting the original entries.

Version	Date	Reason
2	30.05.2016	Released for customer
1	25.05.2016	Pilot release

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [service.sap.com/note-assistant](https://service.sap.com/note-assistant).

## Validity

Software Component	From Rel.	To Rel.	And Subsequent
SAP_HRCES	600	600	<input type="checkbox"/>
	604	604	<input type="checkbox"/>
	608	608	<input type="checkbox"/>
