## Symptom

The IF payroll function has been updated to support the IGA: cálculo de no atrasos(IGANA) customer decision from the Asignación de opciones a situaciones (V\_T5EU3) view for the Spanish payroll.

## Other Terms

&CALC; (for more information, see SAP Note 1071282)

## Reason and Prerequisites

This is not a program error, but an enhancement to support future developments

The following Support Package level is the minimum prerequisite:

| Release | Support Package |
|---------|-----------------|
| 6.08    | HR SP 11        |
| 6.04    | HR SP 83        |
| 6.00    | HR SP B7        |

## Solution

Corrections to source code of RPCMASE9 (specific include for Spanish payroll) have been provided to solve this issue.

The IGANA customer decision is now supported through the value 'GANA' by the IF payroll function when Parameter 2 has value 'SITU'.

Example:

| Function | Par1 | Par2 | Par3 | Par4 |
|----------|------|------|------|------|
| IF       |      | SITU | GANA | 0    |

In this example, the IF payroll function will check if the customer decision IGANA has value 0.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [service.sap.com/note-assistant](http://service.sap.com/note-assistant).
