

2144493 - RPCDEAE0: Delt@ CNAE number of digits

Version	2	Type	SAP Knowledge Base Article
Language	Inglés	Master Language	Inglés
Release Status	Released to Customer	Category	How To
Component	PY-ES (Spain)	Released On	01.08.2016

Please find the original document at <https://launchpad.support.sap.com/#/notes/2144493>

Symptom

CNAE field empty on XML from report RPCDEAE0. This report should show the corresponding text for the first 3 digits of CNAE according to Delt@ legal requirements.

All the information is on the [Guia de cumplimentación del parte de accidente de trabajo](#).

Environment

- Human Capital Management (HCM)
- SAP R/3
- SAP R/3 Enterprise 4.7
- SAP ERP Core Component
- SAP ERP
- SAP enhancement package for SAP ERP
- SAP enhancement package for SAP ERP, version for SAP HANA

Cause

Table T5E4H has been delivered by default with entries for CNAES of 4 digits. This is not an error, table is T5E4H is a customizing table so customers should update it with the corresponding needed values.

Resolution

Add an entry on table T5E4H with field CNAE with just first 3 digits and the appropriate text.

E.g. If you want CNAE of 7111, then table T5E4H should have an entry with 711 and "Ensayos y análisis técnicos" as text.

Keywords
