Symptom

This SAP note provides you with corrections to the following issues in the Antigüedad (E) (0092) infotype in the New Infotype Framework (HR Renewal):

1. The Procedim. de cálculo (ESQUE) field is mandatory, but there is no asterisk next to it to indicate this.
2. In the Información adicional sobre el procedimiento table in the Datos Globales section in the infotype screen, the Nombre de símbolo (SNAME) field values are not being correctly displayed when there is more than one entry in the Secuencias de devengo de la antigüedad (V_T5EA5) view for the same Método de devengo (V_T5EA5-MTDEV) used for a Procedimiento de cálculo de la antigüedad (V_T5EA0-ESQUE) entry in the Procedimientos de cálculo de la antigüedad (V_T5EA0) view.

Solution

Corrections to the source code of the CL_HRPA_UI_CONVERT_0092_ES class have been provided to solve these issues.

From now on:

- 1. The ESQUE field has an asterisk next to it to indicate that this field is mandatory.
- 2. If an entry in the V_T5EA0 has a Método de Devengo 'A' and this Método de Devengo has more than one entry in the V_T5EA5 view, their Nombre de Símbolo values are now correctly displayed when selecting this Procedim. de cálculo (P0002-ESQUE) in the 0092 infotype screen.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:
