

# 2343133 - SLD: intervals for partial strikes in the same day are being generated incorrectly

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	27.08.2016
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2343133>

## Symptom

You run the SLD: fichero de bases (RPC\_PAYES\_CRETA\_BASES) report for an employee with two partial strikes in the same day for two or more consecutive days with the same amount of hours in each day. These partial strikes should be reported in a single interval, however they are generating overlapped intervals.

## Other Terms

&SLD (for more information, see SAP Note 1071282)

## Partial Strikes

## Reason and Prerequisites

The issue happens when there is more than one period of partial strike in the same day for consecutive days. Partial strikes in consecutive days are already merged if they have the same amount of hours, however since there is more than one partial strike period in the same day, the merge does not work correctly, leading to overlapped intervals.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 12
6.04	HR SP 84
6.00	HR SP B8

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

Corrections to the source code of the RPC\_PAYES\_CRETA\_BASES report have been provided to solve this issue.

From now on, partial strike periods within the same day will be merged.

Example: an employee has two partial strikes in the same day, one from 08:00 to 09:00 and one from 16:00 to 16:40. In the day after, the employee has the same partial strike periods. Since the employee has partial strikes in two consecutive days with the same amount of hours (1,67 hours), they should be merged and

reported in a single interval. However for this to happen, first any partial strike periods within the same day should be merged, in order for them to be merged with partial strikes in consecutive days. Therefore, the partial strikes in the same day will be merged into one absence.

Version	Date	Reason
2	August 27, 2016	Released for Customer
1	July 15, 2016	Pilot release

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [service.sap.com/note-assistant](http://service.sap.com/note-assistant).
