

2348791 - CALC: short dump when calculating ERE days when the employee changed personnel area and subarea

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	12.09.2016
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2348791>

Symptom

You run the Cálculo de nómina española (RPCALCE0) for an employee with ERE days and the ABS_ATT_TYPE_NOT_FOUND short dump occurs if the employee changed personnel area (WERKS) and subarea (BTRTL) during the ERE period.

Other Terms

&CALC; &ERE (for more information, see SAP Note 1071282)

Reason and Prerequisites

If the employee changed personnel area and subarea, the current WERKS and BTRTL values are used to read the absence type (T554S-ABSTY) from the Attendance and Absence Types (T554S) view instead of the values correspondind to the period of the ERE absence being processed, causing the short dump to occur.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 13
6.04	HR SP 85
6.00	HR SP B9

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

Corrections to the source code of the RPCMERE0 include have been provided to solve this issue.

From now on, the T554S-ABSTY is retrieved using the dates from the ERE absence being processed.

Version	Date	Reason
2	September 12, 2016	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.
