Symptom

You run the SLD: fichero de bases (RPC_PAYES_CRETA_BASES) report for a part-time employee with a partial strike. The hours spent in the partial strike should not be considered in the total worked hours by the employee in the day it happened. However, the report is wrongly calculating this worked hours for part-time employees.

Partial strike

Reason and Prerequisites

This issue happens because when the report calculates the worked hours for a part-time employee who had a partial strike, it is doing a simple distribution of hours.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 14
6.04	HR SP 86
6.00	HR SP C0

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

Corrections to the source code of the RPC_PAYES_CRETA_BASES report have been provided to solve this issue.

Now the report is reducing the hours of the strike from the worked hours estimated for the part-time employee.
