Symptom

When maintaining the Retenciones (ES) (0887) infotype, you are unable to delimit the entry relevant to the last calculated payroll period if you modify the payroll area to the next month in Registro gestión cálculo nómina (PA03) transaction. Error "La modificación en el pasado de la nómina no es posible" is raised.

Other Terms

&GARNT; (for more information, see SAP Note 1071282)

IT0887; V_T582A; V_T588G; payroll period

Reason and Prerequisites

This issue is a side effect caused by the solution delivered by SAP Note 2305303. The solution would not correctly compare the current infotype entry with the changes made by the user in the screen because the function was missing a parameter. This made the function interpret this delimitation as forbidden.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 14
6.04	HR SP 86
6.00	HR SP C0

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

Corrections to source code of MP088740 have been provided to solve this issue.

Function module RP_RETROACTIVITY_GET now correctly verifies the changes to the infotype and does not prevent delimiting the entry in the case mentioned in the symptom.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.
