Symptom

You maintain the Datos Fiscales (0062) infotype and perform the following steps:

1. You input a value in the Rend.irr.(18.2) (P0062-RENIR) field.
2. This employee has a reduction of irregular incomes in the previous 5 years, so you select the Rend. irreg. reduc. por empleado (P0062-IRREG_INC_REduc_REQ) field and save the entry.
3. Later, you maintain this same entry in 0062 infotype and deselect the IRREG_INC_REduc_REQ field. The infotype allows you to save a value in Rend.irr.(18.2) (P0062-RENIR) field without checking if there is a reduction of irregular incomes in the previous 5 years, but it shouldn't allow you to save the value.

Other Terms

&IRPF; &190 (for more information, see SAP Note 1071282)

Reason and Prerequisites

If the employee has a reduction of irregular incomes in the previous 5 years, the infotype should not allow the user to input a value in RENIR field if the IRREG_INC_REduc_REQ is not selected.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 14
6.04	HR SP 86
6.00	HR SP C0

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

Now, if you perform the steps described in the symptom, the 0062 infotype correctly verifies if there is a reduction in the previous 5 years and does not allow you to save a value in the RENIR field.
