

# 2379068 - PDESFAADO: Duplicated payroll result read from PCL2 and PCL4

Version	2	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	24.10.2016
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2379068>

## Symptom

You run either the SLD: fichero de bases (RPC\_PAYES\_CRETA\_BASES) report with the Reportar diferencias(P\_DIFFER) option or the CRA: Conceptos Retributivos Abonados (RPC\_PAYES\_CRA) report with the Atrasos(P\_ARREAR) option. For some periods, the actual and the previous payroll results are the same. As the mentioned options report differences from actual to previous results, nothing is reported in those periods, despite the fact that the report processed the results. The following messages are displayed in this case:

- For RPC\_PAYES\_CRETA\_BASES report: Tramo no generado para el período MM.YYYY.
- For RPC\_PAYES\_CRA report: Empleado no procesado para el CCC xxxxxxxxxxxx para el período YYYYMM.

## Other Terms

&PDESFAADO; &SLD; &CRA (for more information, see SAP Note 1071282)

Complementaria; P\_DIFFER; P\_ARREAR

## Reason and Prerequisites

The Clase de lectura de nómina para período desfasado (CL\_HRPAYES\_LAGGED\_PERIOD) class retrieves two equal payroll results for the same period; one from the PCL2 cluster, taken as the actual result, and the other from the PCL4 cluster, taken as the previous result. The categorization of the results is correct, but when the last payroll result calculated and the last payroll result reported are the same, there are no differences to be reported.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 14
6.04	HR SP 86
6.00	HR SP C0

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

Now, when the Resultado de nómina: Tabla de resultados (RT) table of the actual and the previous payroll results are equal, they are not processed by the reports.

Version	Date	Reason
2	October 24, 2016	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [service.sap.com/note-assistant](http://service.sap.com/note-assistant).

## Software Components

Software Component	Release
SAP_HRCES	600 - 600
SAP_HRCES	604 - 604
SAP_HRCES	608 - 608

## Correction Instructions

Software Component	From	To	Version	Changed on	ID
SAP_HRCES	608	608	3	24.10.2016 16:26:55	0000119843
SAP_HRCES	604	604	1	24.10.2016 16:28:03	0000125862
SAP_HRCES	600	600	1	24.10.2016 16:30:30	0000125863

## Prerequisites

Software Component	From	To	SAP Note/KBA	Title	Component
SAP_HRCES	600	600	2361213	PDESFAASADO: Method to read the last payroll result available for a given for period	PY-ES
SAP_HRCES	604	604	2361213	PDESFAASADO: Method to read the last payroll result available for a given for period	PY-ES

SAP_HRCES	608	608	2361213	PDESFASADO: Method to read the last payroll result available for a given for period	PY-ES
-----------	-----	-----	---------	---	-------
