

2370794 - AFI: Only one infotype entry is updated when sending multiple actions

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	27.09.2016
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2370794>

Symptom

You run the Mensaje de Afiliación (RPCAFIE0) report for an employee with more than one action to be reported. The actions has the Estado del mensaje .AFI (STAFI) field with the value Por enviar (1). Even though the output file is correctly generated, only one of the entries is updated to the value Enviado (2).

Other Terms

&AFI - PC00_M04_MENS_AFI (for more information, see SAP Note 1071282)

Reason and Prerequisites

Deppending on the SAP_BASIS level of the system, when updating the first infotype entry, the HR_MAINTAIN_MASTERDATA function module cannot lock one employee register, update it and then unlock it before updating the second infotype entry.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 13
6.04	HR SP 85
6.00	HR SP B9

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

Now, for each employee processed by the report, the employee register is locked, all infotype entries are updated, and then the employee is unlocked.

Version	Date	Reason
2	September 27, 2016	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.
