

2411169 - SLD: Incorrect filtering for employees with change on CCC and VND

Version	2	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	10.01.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2411169>

Symptom

You run the SLD: fichero de bases (RPC_PAYES_CRETA_BASES) report for an employee with two consecutive non-taken vacations (VND) periods in different contribution account codes (CCC). If you filter only one CCC in the period, the SLD report is going to fetch all CCC in the xml file.

Other Terms

&SLD (for more information, see SAP Note 1071282)

VND, CCC

Reason and Prerequisites

This issue is a side effect caused by the solution delivered by SAP Note 2388461. It causes the filter from the SLD report to search for incorrect CCC and not just by the ones selected in the filter.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 17
6.04	HR SP 89
6.00	HR SP C3

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the SLD report is going to validate if the CCC are valid depending on the filter.

Version	Date	Reason
2	January 10, 2017	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.
