

2421368 - SLD: Mutua employee with IT should not have IT bases reported

Version	2	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	01.02.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2421368>

Symptom

You run the SLD: fichero de bases (RPC_PAYES_CRETA_BASES) for a public sector Mutua employee with an Incapacidad Temporal (IT) absence and the file is reporting the IT bases, while it should report them as worked bases.

This note is only relevant for the Public Sector (PSE) solution.

Other Terms

&SLD - PC00_M04_CRETA_BASES (for more information, see SAP Note 1071282)

Reason and Prerequisites

When an employee has the Mutua para enfermedades comunes (P0061-SOASV) field filled in the Seguridad Social (ES) (0061) infotype, and the Código de la cuenta de cotización (CCC) configured in the Características dependientes del tiempo de CCCs (V_T5E08) with the Exclusión de incapacidad temporal (V_T5E08-INILT) flag active, the employee's IT bases should not be reported to the Social Security.

Instead, the IT bases should be reported as a worked base.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 17
6.04	HR SP 89
6.00	HR SP C3

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, if the employee has the P0061-SOASV field filled, and his CCC is customized with the V_T5E08-INILT flag active, any IT absence will not be reported in the file, and the absence bases will be reported as a worked base.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	February 01, 2017	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.
