Symptom

You run the SLD: fichero de bases (RPC_PAYES_CRETA_BASES) report to generate additional settlements for an employee in a daily contribution group (P0061-GRCOT 08 to 11) with monthly contribution, reporting the I 51 M indicator in the intervals generated.

However, if the employee has no bases to report in the intervals because the contribution differences do not generate differences in the quotas, the indicator is being incorrectly reported alone in the interval.

Other Terms

&SLD (for more information, see SAP Note 1071282)

Reason and Prerequisites

This issue is a side effect caused by the solution delivered by SAP Note 2356775.

An interval should only be reported if a difference in the contributions generate a difference in the quotas of at least 0,01 EUR.

If the contributions are deleted because they do not generate quota differences, the I 51 M should not be reported too for this interval.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 16
6.04	HR SP 88
6.00	HR SP C2
