

# 2415348 - CALC: first day of work accident colliding with vacation day is not being considered as a worked day

Version	4	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	22.03.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2415348>

## Symptom

You have an employee with vacations and work accident with dates overlapping. You run the Cálculo de nómina española (RPCALCE0) report and the first day of the work accident is being considered as a absence day while it should be considered a worked day.

Example:

The employee's absences are:

01.11.2016 - 30.11.2016 - Vacaciones (Vacations)

29.11.2016 - 04.12.2016 - Enfermedad Laboral (Work Accident)

The day 29.11.2016 is being considered incorrectly as a absence day.

## Other Terms

&CALC - PC00\_M04\_CALC (for more information, see SAP Note 1071282)

## Reason and Prerequisites

The first day of a work accident should be considered as a worked day.

However, when the work accident is overlapping with a vacation day, the first day has the absence symbol Símbolo de absentismo (T5ECP-SIMBO) in the personal calendar as 'Y', and the payroll was not processing the days with SIMBO equal to 'Y' as a worked day.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 18
6.04	HR SP 90

6.00	HR SP C4
------	----------

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, the payroll will consider the day with SIMBO equal to 'Y' as a worked day.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
4	March 22, 2017	Correction instruction for release 604 updated to correct the Support Package va
3	March 22, 2017	Note text updated to indicate the retroactivity control. The solution was not chang
2	February 17, 2017	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [service.sap.com/note-assistant](https://service.sap.com/note-assistant).

To avoid problems with retroactivity the changes were sheltered with the protect correction 'NOTE' '02415348' on table T5F99VD. For further information see note 515323.

## Software Components

Software Component	Release
SAP_HRCES	600 - 600
SAP_HRCES	604 - 604
SAP_HRCES	608 - 608

## Correction Instructions

Software Component	From	To	Version	Changed on	ID
