

# 2440901 - PDES FASADO: SPDES begin period not initialized when SPDES is not active

Version	2	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	17.03.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2440901>

## Symptom

When reading payroll results with Período Desfasado (SPDES) customer situation disabled (that is, set with value 0) and filtering results for a specific in period in the Clase de lectura de nómina para período desfasado (CL\_HRPAYES\_LAGGED\_PERIOD) class, the system returns results for in periods different from the informed one.

## Other Terms

&SLD (for more information, see SAP Note 1071282)

## Reason and Prerequisites

This issue is a side effect caused by the solution delivered by SAP Note 2209595.

The CL\_HRPAYES\_LAGGED\_PERIOD class is retrieving incorrectly the start date of SPDES customer situation activation for scenarios that is has always been disabled.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 19
6.04	HR SP 91
6.00	HR SP C5

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

When SPDES customer situation has always been disabled, the start date of this option will be set to infinity (that is, 12.9999).

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	March 17, 2017	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under <https://support.sap.com/kb-incidents/notes/assistant.html>.

## Software Components

Software Component	Release
SAP_HRCES	600 - 600
SAP_HRCES	604 - 604
SAP_HRCES	608 - 608

## Correction Instructions

Software Component	From	To	Version	Changed on	ID
SAP_HRCES	608	608	2	17.03.2017 11:29:41	0000159747
SAP_HRCES	604	604	1	17.03.2017 11:30:34	0000166213
SAP_HRCES	600	600	1	17.03.2017 11:31:19	0000166214

## Other Components

Component	Description
PA-PA-ES	Spain
XX-CSC-ES-PY	Payroll
