## Symptom

You run the Cálculo de nómina española (RPCALCE0) report for an employee with the Trabajadores >=59 años y con antigüedad >=4 años (0050) method or the >= 59 años y 4 años antig./reduc. ant. edad jubil. col. bom. (0054) method in the Seguridad Social (ES) (0061) infotype. The IT derivada de Cont. Comunes (09) contribution percentages read from the Tipos de cotización a la Seguridad Social (T5E45) table are the ones from 2012 instead of the current year. As a result, the Reducción empresa para fondo conting. comunes (/335) wage type is calculated with a wrong amount.

## Other Terms

&CALC - PC00\_M04\_CALC (for more information, see SAP Note 1071282)

T5E45, TICOT 09, /335

## Reason and Prerequisites

SAP Note 1826723 delimits the contribution percentages for these methods to the values of 2012. This delimitation still takes effect, even though new contribution percentages have been delivered after this SAP Note.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 20
6.04	HR SP 92
6.00	HR SP C6

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

The delimitation to the contribution percentages of 2012 has been deactivated with a retroactivity control from table T5F99VD.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [service.sap.com/note-assistant](http://service.sap.com/note-assistant).

To avoid problems with retroactivity the changes were sheltered with the protect correction 'NOTE' '02419688' on table T5F99VD. For further information see note 515323.
