## Symptom

You run the Mensaje de Afiliación AFI (RPCAFIE0) report with the FCT Obligatorio (S\_FCT) field selected for an action different from Movimiento de Baja (MB). The system tries to generate Fechas de Control de Trabajadores (FCT) segment and if the payroll simulation fails, the AFI file is not generated.

## Other Terms

&AFI - PC00\_M04\_MENS\_AFI (for more information, see SAP Note 1071282)

## Reason and Prerequisites

The FCT segment must only be generated for the action MB.

This issue is a side effect caused by the solution delivered by SAP Note 2410233.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 19
6.04	HR SP 91
6.00	HR SP C5

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, the report will check if the employee action is equals to MB before generating the FCT segment.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be

changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under <https://support.sap.com/kb-incidents/notes/assistant.html>.
