## Symptom

You run the SLD: fichero de bases (RPC\_PAYES\_CRETA\_BASES) report for employees with complementary hours and with partial strike. You are experiencing one of the following issues:

1. The report generates the Numero de horas complementarias (H02) concept with zero hours for employees with less than one complementary hour.
2. The report generates the Numero de horas Contrato Tiempo Parcial(H01) or Numero de horas complementarias (H02) concepts with a negative value.

Both symptoms may cause the rejection of the file by the Spanish Social Insurance.

## Solution

Corrections to the source code of the RPCPAYES\_CRETA\_CONTRIB\_C\_CIMP include have been provided to solve the related issues:

1. From now on, the report will verify if the value of the concept H02 is initial before generating the concept.
2. The calculation of the concept H01 and H02 values was changed in order to avoid the generation of negative values.
