

2408844 - CALC: multi-employment absence wage types missing

Version	3	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	17.04.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2408844>

Symptom

You run the **Cálculo de nómina española**(RPCALCE0) report for an employee in multi-employment situation and with an absence. The multi-employment wage types **Base IT FOGASA**(/34R) and **Base IT Desempleo**(/34S) are not being generated.

Other Terms

&CALC - PC00_M04_CALC (for more information, see SAP Note 1071282)

Reason and Prerequisites

This issue is a side effect caused by the solution delivered by SAP Note 2408268.

The SAP Note 2408268 delivered a solution to check if the employee is in a multi-employment situation before generating the wage types /34R and /34S.

However, this solution was not applicable to all scenarios needed.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 20
6.04	HR SP 92
6.00	HR SP C6

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

Corrections have been applied to Cálculo de bases y prestaciones para IT (EBPI0) payroll function to ensure the wage types /34R and /34S will always be generated when an employee with an absence has multi-employment bases to report.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	April 13, 2017	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under <https://support.sap.com/kb-incidents/notes/assistant.html>.
