

2423561 - CALC: FOGASA report for Acting Resident Doctors

Version	3	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	02.03.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2423561>

Symptom

You run the Cálculo de nómina española (RPCALCE0) report for an employee which has the Relación laboral especial (Q0061-RELAB) field set to Médicos Interinos Residentes (9902) in the Seguridad Social (ES) (0061) infotype and the Fondo de Garantía Social (/361) wage type is being generated.

Other Terms

&CALC - PC00_M04_CALC(for more information, see SAP Note 1071282)

Reason and Prerequisites

When the employee is a Médico Interino Residente it does not have to generate the /361 wage type.

You have to apply SAP Note 2415411 as prerequisite.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 19
6.04	HR SP 91
6.00	HR SP C5

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the report will not generate the /361 wage type when the employee has the Q0061-RELAB field set to 9902 value.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
3	March 02, 2017	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under service.sap.com/note-assistant.

To avoid problems with retroactivity the changes were sheltered with the protect correction 'NOTE' '02423561' on table T5F99VD. For further information see note 515323.

Software Components

Software Component	Release
SAP_HRCES	600 - 600
SAP_HRCES	604 - 604
SAP_HRCES	608 - 608
