

2500451 - PDESASFASADO: Corrections to support processing ordinary and complementary settlements simultaneously

Version	3	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	09.10.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2500451>

Symptom

You run the SLD: fichero de bases (RPC_PAYES_CRETA_BASES) report to generate again a file previously sent with both ordinary and complementary settlements in a productive run. Then, the ordinary settlement is not retrieved.

Important: this correction should only affect the behavior for customers with the Período desfasado (SPDES) customer situation activated (that is, with values 01, 02, or 03).

Example:

Consider an employee that has a productive run for a complementary settlement in 01.2017 and an ordinary settlement for 02.2017 that has been sent in 02.2017. Then, you execute the RPC_PAYES_CRETA_BASES report for this same employee without using the Grabar resultados en productivo (cluster PCL4) (P_LIVRUN) option, selecting 02.2017 in the Período cal.nóminatab and 01.2017 - 02.2017 in the Período de liquidación range and also selecting the Reportar diferencias (P_DIFFER) option.

For this scenario, the ordinary settlement will not be generated again.

Other Terms

&PDESASFASADO; &SLD - PC00_M04_CRETA_BASES (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

The payroll results used to generate the ordinary settlement were not being filtered correctly for cases that both ordinary and complementary settlements are generated.

This SAP Note is relevant only for Spain.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

--	--

Release	Support Package
6.08	HR SP 27
6.04	HR SP 99
6.00	HR SP D3

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The handling of ordinary settlements has been adapted in order to work with cases that complementary settlements are also generated.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
3	October 09, 2017	Note released to customers

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
