1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under <https://support.sap.com/kb-incidents/notes/assistant.html>.

IMPORTANT UDO REPORT INFORMATION

- This report serves only as a tool to generate the required objects automatically. Therefore, it has no positive or negative effect to transport the RPU_PAYES_UDO_NOTE_2440904 report to your production system.
- The objects created by the execution of this report can only be used after you apply the main SAP Note that delivers the solution.
- Always verify that you only have green system messages during the execution of the report. If you have yellow warnings or red error messages that you cannot solve, open an incident with RPU_PAYES_UDO_NOTE_2440904 in the description.
- If your system is currently on release SAP_HRCES 600 and you try to activate data dictionary objects by using the UDO report, you may get the following warning message: "Unexpected entry in DDXTT: <object name>". In this case, please activate the objects manually by using the SE11 transaction.
