## Reason and Prerequisites

You have to apply SAP Note 2441657 as prerequisite.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 20
6.04	HR SP 92
6.00	HR SP C6

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

A new structure HRPADES\_S\_AFI\_FAB was created to be used in the Fecha de Altas y Bajas (FAB) record in the Mensaje de Afiliación(RPCAFIE0) report.

This structure contains the new field Grado de Discapacidad, which is filled with the value of the field Grado de invalidez (P0004-SBPRO) from the Invalidez (0004) infotype.

### Product documentation

Documentation for the HRPADES\_AFI\_DISABILITY\_DEGREE is delivered with this HR Support Package. Refer to the attached document (Documentation\_SAP\_Note\_2442890.pdf) for the documentation of the data element.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.
