Symptom

The field Hora de trabajo (P0968-HTRAB) of Delt@ (0968) does not allow you to input hour values in 24-hour clock format.

Other Terms

&DELT@ (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

The domain of this field is not configured to accept values greater than 12.

You have to apply SAP Note 2461330 as prerequisite.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 20
6.04	HR SP 92
6.00	HR SP C6

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The Hora de trabajo (PES_HRTAB) domain of the Hora de trabajo a la que ocurrió el accidente (PES_HRTAB) type has been adapted to support hour values in a 24-hour clock format.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.
