Symptom

You run the SLD: fichero de bases (RPC_PAYES_CRETA_BASES) report for the scenario described below and an interval is missing in the 31st day of the month.

Scenario:

- The employee is assigned to a daily contribution group but has monthly contribution
- The employee do not have contribution base in the 31st day of the month due to the days adjustment rules

Example: the employee has an absence from 27th to 31st and a bonification change on the 31st. This scenario demands the creation of intervals from 27th to 30th and on the 31st. However, due to the days adjustment rules, there are no contribution bases on the 31st.

Reason and Prerequisites

When the employee is assigned to a daily contribution group but has monthly contribution, it is necessary to inform the Modalidad de salario (51) indicator in the intervals where there are no contribution bases.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 21
6.04	HR SP 93
6.00	HR SP C7

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the report identifies this scenario and creates an interval in the 31st day of the month to report the 51 indicator.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	May 25, 2017	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under <https://support.sap.com/kb-incidents/notes/assistant.html>.
