Reason and Prerequisites

This is a legal change.

You have to apply SAP Note 2449904 as a prerequisite.

As indicated in the Boletín RED 01/2017, the companies will be able to send to the Social Security the social insurance data for Artists employees using the Sistema de Liquidación Directa (SLD).

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 21
6.04	HR SP 93
6.00	HR SP C7

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

Functional changes:

This SAP Note delivers the changes to report the worked and absence intervals for L00 liquidations (ordinárias) and additional settlements (complementarias).

For employees with CCC type 007, the concept Percepciones (300) will be reported with the values calculated in the Retr.CC-Íntegra (/3SA) wage type. The concepts Contingencias comunes (500) and IT de accidentes de trabajo (601) will be reported with the values calculated in the Percepciones topadas para contingencias comunes (/3SC) and Percepciones topadas para contingencias profesionales (/3SD) wage types respectively.

If the employee has two or more acting jobs during the month, and they have different daily salaries (salary by acting day), the interval will report the fields <FechaDesdeAlta> and <FechaHastaAlta> with the affiliation dates for each interval. If the daily salaries do not change between acting jobs, these fields will not be reported.

Example 01:

Employee is active during the whole month and has two acting jobs in the month (with variation in the daily salary):

- 01.01.2017 - 10.01.2017 - daily salary: 100 EUR
- 11.01.2017 - 15.01.2017 - daily salary: 150 EUR

The file will report the fields FechaDesdeAlta and FechaHastaAlta for both intervals with values 01.01.2017 - 31.01.2017.

Example 02:

Employee is active during the whole month and has two acting jobs in the month (with no variation in the daily salary):

- 01.01.2017 - 10.01.2017 - daily salary: 100 EUR
- 11.01.2017 - 15.01.2017 - daily salary: 100 EUR

The file will not report the fields FechaDesdeAlta and FechaHastaAlta in the intervals.

For the liquidations Complementaria abono salarios carácter retroactivo (L03) and Complementaria por incremento de bases (L90), all concepts from the Régimen General will be reported. For the other liquidations, in worked intervals, only the concepts 300, Horas Extras Fuerza Mayor (501), and Otras Horas Extras (502) will be reported. In absence intervals, the same concepts as reported for the Régimen General will be reported too.

Customizing changes:

The subapplication SLD bases: Artistas (CREA) was created in the Aplicaciones parciales (V_T596A) view.

The concept 300 was added in the subapplication CREA in the Asignación claves concepto nómina a CC-nómina acumulación (V_T596I) view. Also, all the other concepts from subapplication CREB that need to be reported for Artist employees in absence intervals were included in this subapplication too.

Technical changes:

The HRPAYES_CRETA_BASES XML transformation was changed to include the fields <FechaDesdeAlta> and <FechaHastaAlta>.

The Cambiar datos del SLD en cada tramo (CHANGE_PAYROLL_DATA_TAB) method of the BAdI: Controlar datos propuestos para fichero de bases del SLD (HRPAYES_CRETA) BAdI will now receive the fields active_begda and active_endda, that correspond to the <FechaDesdeAlta> and <FechaHastaAlta> fields in the XML file.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual pre-implementation steps.
2. Use Note Assistant (SNOTE) to implement the correction instructions.
