Symptom

You run the SLD:fichero de bases(RPC_PAYES_CRETA_BASES) report using the Tipo de Liquidación (S_LIQFIL) selection option to select the liquidations that should appear in the XML file for an employee that has Non-taken vacations (vacaciones no disfrutadas). Then, if you select to exclude the L13 Complementarias por vacaciones no disfrutadas liquidations, they are still present in the program's technical log (nevertheless, the XML generated is correct).

Other Terms

&SLD - PC00_M04_CRETA_BASES (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

This issue is a side effect caused by the solution delivered by SAP Note 2404790. Only the L13 liquidations are not able to be filtered from the program's technical log.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 21
6.04	HR SP 93
6.00	HR SP C7

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The RPC_PAYES_CRETA_BASES report has been adapted to correctly take into account the filter of the S_LIQFIL selection option.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under <https://support.sap.com/kb-incidents/notes/assistant.html>.
