Symptom

You enter in the Elementos Contrato (IT0016) infotype and verify that some text fields (tab name and field labels) are named "INEM" (Instituto Nacional de Empleo), when you expected to be "SEPE" (Servicio Público de Empleo Estatal).

Other Terms

&CONTRAT@ (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

You have to apply SAP Note 2471608 as prerequisite.

Some text fields and descriptions in the IT0016 infotype are making reference to the "INEM", when it should be referencing "SEPE".

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

| Release | Support Package |
|---------|-----------------|
| 6.08 | HR SP 21 |
| 6.04 | HR SP 93 |
| 6.00 | HR SP C7 |

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The description and field labels of the following data elements were updated to comply with the current legal status:

- PES_OFFIN
- PES_REGNR

- PES_FECRG
- PES_NFORM
- PES_CODIDCONTR
- PES_FECABD
- PES_STACOM
- PES_OBLCB
- PES_TIPOF
- PES_CODLOC
- PES_OFFRG

In addition, the "INEM" tab of IT0016 infotype has been renamed to "SEPE". It is important to note that the main language of IT0016 infotype is German, so this particular update delivered by this note will only be available in German. The Spanish translation will be delivered by the next Support Package to be released.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

| Version | Date | Reason |

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual pre-implementation steps.
2. Use Note Assistant (SNOTE) to implement the correction instructions.
