Please find the original document at <https://launchpad.support.sap.com/#/notes/2475315>

Symptom

You enter in Visualizar ejecuciones productivas del TC (RPCL4DE0) report, or Borrado de la última ejecución productiva de un TC (RPCL4BE0) report and verify that the titles refers exclusively to the TC report. The same happens with the Directorio de resultados de nómina utilizados en el TC (T5EC1) table and some fields.

Other Terms

&PDESFAASADO (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

You have to apply SAP Note 2475993 as prerequisite.

Some text fields, descriptions and titles in RPCL4DE0, RPCL4BE0 and T5EC1 are making reference exclusively to the "TC", but since they are also related to CRA and SLD, they should not be named like this.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 21
6.04	HR SP 93
6.00	HR SP C7

(For more information, click on "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The description and field labels of the following data element were updated to comply with the current legal status:

- PES_PERPR

In addition, the "TC" title of RPCL4DE0 and RPCL4BE0 reports has been renamed to "del período desfasado". It is important to note that the main language of IT0016 infotype is Spanish, so this particular update delivered by this note will only be available in Spanish. Other translations will be delivered by the next Support Package to be released.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. If this is the case, a reason for the change will be specified in the SAP Note.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual pre-implementation steps.
2. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under <https://support.sap.com/kb-incidents/notes/assistant.html>.
