1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

#### IMPORTANT UDO REPORT INFORMATION

- This report serves only as a tool to generate the required objects automatically. Therefore, it has no positive or negative effect to transport the RPU\_PAYES\_UDO\_NOTE\_2569245 report to your production system.
- The objects created by the execution of this report can only be used after you apply the main SAP Note that delivers the solution.
- If your system is currently on release SAP\_HRCES 600 and you try to activate data dictionary objects by using the UDO report, you may get the following warning message: "Unexpected entry in DDXTT: < object name>". In this case, please activate the objects manually by using the SE11 transaction.
