

2567027 - CALC: Short dump when reading T554S

Version	2	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	17.01.2018
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2567027>

Symptom

When an absence is created in the Absentismo (V_T554S) view from another day than the first of any month, and you a run the Cálculo de nómina Española(RPCALCE0) report for an employee with this absence, a short dump (ABS_ATT_TYPE_NOT_FOUND) occur even if the absence of the employee is set to a valid day.

Other Terms

&CALC - PC00_M04_CALC (for more information, see SAP Note [1071282](#))

Short dump; V_T554S;

Reason and Prerequisites

The RPCALCE0 report try to read the absences types from the V_T554S view by the beginning date of the current period, instead of the beginning date of the absence set in the Absentismo (2001) infotype.

This SAP Note is relevant only for Spain.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the RPCALCE0 report will use the beginning period of the absence set in the 2001 infotype, instead of the beginning of the period being calculated.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be

changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	January 17, 2018	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

Software Components

Software Component	Release
SAP_HRCES	600 - 600
SAP_HRCES	604 - 604
SAP_HRCES	608 - 608

Correction Instructions

Software Component	From	To	Version	Changed on	ID
SAP_HRCES	608	608	1	17.01.2018 19:11:04	0000312658
SAP_HRCES	604	604	1	17.01.2018 19:10:31	0000312657
SAP_HRCES	600	600	2	17.01.2018 19:08:18	0000260431

Other Components

Component	Description
