### Symptom

The following issues have been identified in the SEPE: Contrato Indefinido - 2017 (version 2) (HR\_ES\_COINEM\_PE\_UND\_2017\_2) form:

1. The field peculiaridades in the Clauses section is being truncated in 40 characters. It should have 80 characters.
2. The first three input fields of the Clauses section should be linked to the following Interfase Formulario Contrato Indefinido (HRPADES\_S\_CP\_UNDEFINED) structure fields (in order): Clauses-Profesion, Clauses-Categoria and Functions.

### Other Terms

&INEMCP (for more information, see SAP Note [1071282](#))

Contracto Indefinido; INEM; IUND;

### Reason and Prerequisites

This SAP Note is relevant only for Spain.

The issues are caused by wrong customization of the pdf layout.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

### Solution

The PDF layout of the HR\_ES\_COINEM\_PE\_UND\_2017\_2 form was changed to support 80 characters in the Clauses-Peculiaridades field and to link to the correct structure fields. From now on, the first three Clauses fields will have the following link with HRPADES\_S\_CP\_UNDEFINED structure:

- Clauses-Profesion.
- Clauses-Categoria.
- Functions.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual activity steps.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
