Release Status	Released for Customer	Released On	05.01.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2579079>

## Symptom

After implementing the SAP Note [2469237](#), theComunicación de contratos al SEPE (RPCINEE0) program is generating the XML file for the contracts Dur. temp. T. Comp. Práctica (420), Dur. temp. T. Comp. Formación (421) andDur. temp. T.Parc. Práctica (520) without the <DATOS\_USOLIBRE\_EMPRESA> XML tag.

## Other Terms

&CONTRAT@ (for more information, see SAP Note [1071282](#))

## Reason and Prerequisites

The Gestión de la comunicación de la contratación laboral (INEM) (PESI0) type pool was updated due to the Contrat@ legal change of 2017 January. These changes were delivered in the SAP Note [2469237](#). However, the XML schema stored in the Tabla de cluster para España(T5ET2) cluster table was not updated.

This issue is a side effect caused by the solution delivered by SAP Note [2469237](#).

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

The CONTRATOS50 and RESPUESTA\_CONTRATOS50 XML schemas were updated in the T5ET2 cluster table to fix the issue.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be

changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
3	January 05, 2018	Released for customer

R3TR TABU T5ET2 (C)

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the Manual Activity steps.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
