Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	05.01.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2579688>

## Symptom

When you run the Cálculo de nómina española(RPCALCE0) report for an employee that has the Exención (EXESS) field checked in the Seguridad Social(0061) infotype or has locked entries in infotype 0061, the Días activo Seg.Social (/3AC) wage type is being generated with zero days.

## Other Terms

&CALC - PC00\_M04\_CALC (for more information, see SAP Note [1071282](#))

## Reason and Prerequisites

The /3AC wage type should be generated with the number of days that the employee was active for the Social Security, even for employees that are exempt.

This SAP Note is relevant only for Spain.

You need to apply SAP Note 2464026 as prerequisite.

This issue is a side effect caused by the solution delivered by SAP Note 2515083.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

The days adjustment class is now ignoring the EXESS field from infotype 0061 when defining in which days the employee was active. Additionally, all locked entries from infotype 0061 will be ignored when checking if the employee is active.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	January 05, 2018	Note released to customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
