RPCIR1E0; RPUIR1E0

## Reason and Prerequisites

The XML schemas used in the Generación masiva de datos de IRPF (RPCIR1E0) and Evaluación de ficheros del programa de AEAT (RPUIR1E0) programs have changed, as published by the Agencia Tributaria.

You have to apply SAP Note 2586366 as prerequisite.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
---------	-----------------

6.08	HR SP 30
6.04	HR SP A2

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

The XML schemas used in the RPCIR1E0 and RPUIR1E0 programs have been updated to comply with the legal changes for 2018.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	January 10, 2018	SAP Note released for customers.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual post-implementation steps.
