Please find the original document at <https://launchpad.support.sap.com/#/notes/2589437>

Symptom

When you create or edit an entry of the Datos de mensaje AFI(0799) infotype, you can select an option in the Pérdida Beneficios(P0799-INDPB) field that is different from '01' and '08' when the Acción(P0799-ACCAF) field has the value 'MA', which should not be possible.

Other Terms

&AFI (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

There was no consistency check for the P0799-INDPB field.

You have to apply SAP Note 2590141 as prerequisite.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

If the value on the P0799-INDPB field is not consistent with the action, the "Para la acción MA, seleccione el ind. pérdida de beneficios 01 ó 08." (5E 702) warning message is displayed. When creating new entries, the Search Help pop-up for the P0799-INDPPB field will only display options that are consistent with the P0799-ACCAF field.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.
