

2513690 - IGA: Infotype 0090 entries from previous year being read when S_REA_CA parameter is selected

Version	3	Type	SAP Note
Language	English	Master Language	English
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	07.11.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2513690>

Symptom

When you run the Cálculo de ingresos gravables anuales (RPIGA0E0) program with the Res. ant. sólo sup. VarV anual (S_REA_CA) and Ingresos adicionales (S_0090) parameters selected, the program is reading the Ingresos adicionales (0090) infotype entries from the previous year instead of the current year.

Other Terms

&IGA - PC00_M04_RPIMBIE0 (for more information, see SAP Note [1071282](#))

Variables variables;

Reason and Prerequisites

This issue happens because the dates are changed for the previous year to evaluate the variables variables from the previous year before the read of the 0090 entries.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 28
6.04	HR SP A0
6.00	HR SP D4

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The previous year dates are now stored in separated variables to avoid changing the 0090 infotype reading dates.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be

changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
3	November 07, 2017	SAP Note released for customers.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under <https://support.sap.com/kb-incidents/notes/assistant.html>.
