

2551011 - IGA: Batch Input incorrectly filled if employee changes it region in the middle of the month

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	16.11.2017
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2551011>

Symptom

When you run the Cálculo de ingresos gravables anuales (RPIGA0E0) program for an employee that changed his Modif. IRPF (0062-CODAU) in the Datos Fiscales(0062) infotype from Other provinces (99) to any foral region in the middle of the month, the batch input is being generated for the foral region with the infotype fields from the Other provinces region. The Campo P0062-REGBR. (no se permiten entradas) error message is displayed when the batch input is saving the infotype.

Other Terms

&IGA - PC00_M04_RPIMBIE0 (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

This issue happens because the batch input is being generated with infotype 0062 fields that do not exist for an employee from a foral region.

This SAP Note is relevant only for Spain.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 28
6.04	HR SP A0
6.00	HR SP D4

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The RPIGA0E0 program will now use the CODAU from the current 0062 entry to determine which fields should be filled in the batch input.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	November 16, 2017	SAP Note released for customers.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
